

## APPRENTICESHIP OPPORTUNITIES AVAILABLE NOW AT DIGITAL HEALTH AND CARE WALES EARN WHILE YOU LEARN

DO YOU WANT TO PLAY  
YOUR PART IN HELPING TO  
SAVE LIVES BY SUPPORTING  
NHS WALES SYSTEMS AND  
SERVICES?

Digital Health and Care Wales (DHCW) is the home of digital within NHS Wales and we currently have five paid full-time apprenticeship opportunities available in various areas:

### INFORMATION SERVICES TEAM (1 APPRENTICESHIP POST)

With a flexible approach to working which will be discussed at interview, you will be involved in a range of areas, including administration as well as providing analytical, modelling and data processing support.

You will respond to information requests to provide data, run reports and develop dashboards through the application of analytical and data handling skills. You will also have the opportunity to work with our data warehousing and acquisition team, who pull health data from across NHS Wales.

To support your work with this team, you will also undertake a part time higher degree apprenticeship in Data Science at University of Wales Trinity Saint David commencing in September 2021.

## INFORMATION AND COMMUNICATIONS TECHNOLOGY TEAM (3 APPRENTICESHIP POSTS)

Based in our Cardiff office, you will gain experience in a number of areas within our ICT Directorate which is responsible for a multitude of digital services across NHS Wales including: Cyber Security, Cloud services, Networking, Monitoring, Server & SAN storage, Telephony, Video Conferencing, DNS, Redhat Linux, SQL, Authentication, Office 365 plus a range of other core infrastructure services.

The work area includes providing an accurate and efficient administrative service and will support the management of the national data centres and cloud environments which host the centrally provided NHS Wales clinical and critical systems. The role will provide the opportunity to experience a varied and challenging set of tasks, with the successful individual working across all the operational infrastructure teams helping develop, maintain and support national services.

This opportunity to work across technologies coupled with the criticality of the services will provide a broad understanding of the technical challenges involved in providing services and maintaining their continuity. The role offers the ability to work with all the teams and you will also undertake one of a number of part time higher digital degree apprenticeship qualifications available (decided by your Head of Department) commencing in September 2021.

## PLANNING AND PERFORMANCE TEAM (1 APPRENTICESHIP POST)

As a planning and performance apprentice, you would get to grips with how the organisation plans priorities and activities and then monitors where we are against a plan. The work is wide ranging and builds your knowledge across the whole organisation.

An attention to detail is essential and enthusiasm to learn new digital tools. You will help co-ordinate plans, arrange workshops, compile performance reports and support specific projects to deliver our systems.

Your work base will be discussed at interview with the possibility of some home working. You will study for a Level 3 qualification in Health Informatics which will support you in developing new skills.

These are exciting opportunities to join an innovative programme while earning a salary (currently £19,737).

You will have access to courses specifically chosen for the role and you will be supported by experienced mentors and managers throughout your apprenticeship. As an apprentice working in a rapidly growing sector, you will gain and develop your skills and become a digital health and care professional of tomorrow.

**TO APPLY**, please send a CV and covering letter stating which role you would be interested in and telling us why you are perfect for an apprenticeship role with us at DHCW to [DHCW.Apprenticeships@wales.nhs.uk](mailto:DHCW.Apprenticeships@wales.nhs.uk)

### **CLOSING DATE**

for applications is Friday 16th July 2021 at 5pm

We are keen to attract a broad spectrum of applicants from diverse backgrounds. If you have the right aptitude, motivation and attitude we want to hear from you.

Please specify which apprenticeship you would like to apply for, ensuring your covering letter is detailed and specific to how you meet the role requirements.
