[News Article: Organisations are detecting and containing attacks faster since GDPR](#)
A new report has found that the 'dwell time' between the start of a cyber intrusion and it being identified, has fallen from 177 days to 54 days since the introduction of the General Data Protection Regulation (GDPR).

[News Article: Barclays scraps 'Big Brother' staff tracking system](#)
Barclays says it has scrapped a system that tracked the time employees spent at their desks and sent warnings to those spending too long on breaks.

[News Article: Fitbit may pose privacy risk to users, Europe warns](#)
Fitbit and Google have promised to keep health and fitness data safe after a merger, but the EU wants concrete proof of their commitments

[News Article: ISS World hack leaves thousands of employees offline](#)
A cyber-attack has hit the major facilities company ISS World, which has half a million employees in the UK and worldwide.

[News Article: EU plans new rules for AI but experts seek more detail](#)
The European Commission has said it intends to draw up new rules to protect citizens against misuses of artificial intelligence (AI) tech.

[News Article: Catholic Church records may be inspected over GDPR concerns](#)
The Irish data protection supervisory authority is investigating whether baptismal records fall under EU data privacy law as the church's refusal to delete records for those who renounce their religion breaches GDPR's right to erasure.
[Relates to Ireland]
