[ICO Blog: Global collaboration and how it helps the UK](#)
The Information Commissioner, Elizabeth Denham, looks at how the Information Commissioner's Office (ICO) can contribute to global collaboration to ultimately better protect people in the UK.

[News Article: GDPR - Where does the fine money go?](#)
Before the EU's General Data Protection Regulation (GDPR) came into force, the ICO powers were limited to fining organisations a maximum of £500,000. This pales in comparison to the intended penalties that have already been issued under the Data Protection Act 2018 and GDPR.

[News Article: Assessing the Cost Structure of GDPR Compliance Strategies](#)
A new report has stated that the GDPR is a complicating factor for the Internet of Things devices as legislation requires devices to be designed with data protection requirements in mind.

[ICO Blog: Data Protection Impact Assessments and AI](#)
A new blog by the ICO looks at some of key considerations for organisations undertaking data protection impact assessments for Artificial Intelligence (AI) systems.

[News Article: EU-US Privacy Shield review details progress](#)
The third annual review of the progress of the EU-US Privacy Shield framework, which provides a secure flow of protected data, has been released.

[News Article: Germany's goal in becoming the EU leader in digital healthcare](#)
German Parliament are looking to embrace digital healthcare with plans to create an electronic health record for all insured patients by 2021 and introduce a separate law on the protection of health data in electronic patient records.
[Relates to Germany]
