## Reason for Change

The formatting of some of the values within the Data Dictionary that have previously been retired and subsequently reinstated or amended means that their current active/inactive status is not clearly shown.

## Description of Change

Rather than show the changes with a different font style only, subsequent changes will be shown on a separate row in affected tables – one row to show the original 'Valid from' and 'Valid to' dates; and another row underneath to show the new reinstated or amended date and, if applicable, the 'Valid to' date.

## Data Dictionary Version

Where applicable, this DDCN reflects changes introduced by DDCN and/or DSCN since the release of version 4.8 of the NHS Wales Data Dictionary.

The changes introduced by such DDCNs will be published in version 4.9 of the NHS Wales Data Dictionary.

Psychiatric Census		

This is a classification of a patient's legal status which is either informal or as designated in the Mental Health Act 1983 or other acts. The classification "informal" is used for those patients who are not formally detained or not receiving supervised aftercare. The classification is required for all patients who have a hospital provider spell which includes the care of a Consultant in the psychiatric specialties or have been discharged from such a hospital provider spell and are required to receive supervised aftercare under the provision of the Mental Health (Patients in the Community) Act 1995.

For the APC ds99 this data item became effective from April 1999 and, with the data item Administrative Category, replaced the data item Category of Patient.
